Cost of remodeling articles _____

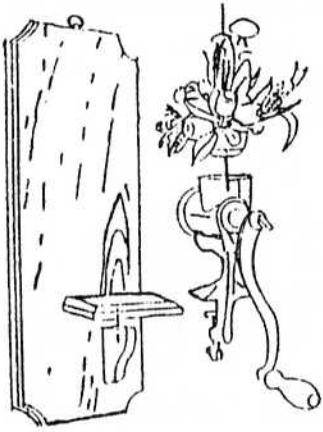

Article was obtained from _____
(home, Goodwill, Salvation Army, Sale, etc.)

Purpose of new article _____

Before Picture

After Picture

Turn these throw away objects into attractive useful items for your home

an old-fashioned kitchen grater--with 4 sides--instead of the meat grinder. Substitute several wooden spoons and plastic fruits for the vegetables. Paint the spoons with 2 coats of acrylic paint. Insert Styro-foam at the base of the grater; insert ends of spoons into Styrofoam with spoon bowls coming through top of grater. Insert bunches of grapes into the openings in the grater sides. Center and nail a wooden block, slightly smaller than the wider open end of the grater, on the 8 1/2-inch X 6-inch wooden shelf. Place the wider end of the grater over this wooden support.

PLEASE ATTACH LABEL SECURELY TO YOUR PROJECT.
